

# [www.bestprice.gr](http://www.bestprice.gr) Content Engineer

Voutes, Heraklion

[DescriptionApplication](#)

## Description

BestPrice is a leading discovery, research and price comparison platform at the forefront of e-commerce and digital advertising. With over 4 million visitors per month, it currently features 3.500+ merchants, more than 19 million products and is entering a new and exciting growth phase. As part of its development plan, it is seeking to hire a **Content Engineer** for its Heraklion office.

## Key Responsibilities

- Assist merchants in integrating and promoting their products on BestPrice.gr
- Check technical specifications for onboarding e-shops
- Provide helpful feedback to merchants
- Monitor ticketing system
- Develop internal tools using Javascript
- Technical support for merchants
- Manager user feedback

## Requirements

### Experience

- Studies in Computer Science, Information Technology or related field
- Excellent written and verbal communication skills in Greek/English language
- Familiarity with the Web and new technologies
- Experience in a similar position, preferably in an eCommerce environment, would be considered a strong plus

### Skills

- Ability to manage and prioritise multiple tasks
- Familiarity with Unix/Linux operating systems/commands
- Experience with web technologies such as HTML, JavaScript
- Familiarity with XML/CSV
- Familiarity with code versioning tools, such as Git
- Excellent communication skills
- Clarity of thought and ability to communicate in text
- Attention to detail
- Consistent and punctual in meeting agreed timelines
- Collaborative, team player and enthusiastic

### Benefits

- The opportunity to be part of a growing and leading digital team in Greece
- A relaxed and modern workplace environment
- Training and professional development plan
- Helpful and friendly colleagues
